

MELBOURNE COARSE ANGLERS ASSOCIATION – EQUIPMENT & BAIT

Coarse angling equipment is very difficult to purchase within Australia and New Zealand, although carp fishing equipment is somewhat easier to source. Some of this equipment has the potential to “Cross over” to coarse angling.

Members will all have their preferred suppliers, and the club does not recommend some over others.

The list below is always subject to updates.

OVERSEAS SOURCES

Members have often formed temporary “Buying groups” and worked with BILLY CLARKE in Sheffield (speak to Tom).

Tom will arrange VAT free prices and a good price for freight.

Other UK sources that anglers may wish to use include:

Benwicks Angling Supplies

<https://www.benwick-sports.co.uk/>

Tackle UK

<https://www.tackleuk.co.uk/>

Angling Direct

<https://www.anglingdirect.co.uk/>

Members can also consider ebay and Ali Express where some surprisingly good bargains can be had for end tackle and luggage.
